

Placement Cell

Nagpur Veterinary College

The Placement Cell of Nagpur Veterinary College is a dedicated department or committee that facilitates job and internship opportunities for veterinary students, especially final-year undergraduates and postgraduates.

The Placement Cell acts as a bridge between the students and potential employers in the veterinary and animal sciences industry. It supports students in securing roles in:

- Government veterinary services
- Pharmaceutical companies
- Animal health and nutrition firms
- NGOs and animal welfare organizations
- Research institutions
- Dairy and poultry industries
- Wildlife conservation projects
- Pet clinics and hospitals
- Higher education and academic research

Key Functions:

- 1. Industry Tie-ups**
Collaborates with veterinary hospitals, biotech firms, pharma companies, and NGOs to bring job opportunities to students.
- 2. Campus Recruitment Drives**
Organizes campus interviews and recruitment events with industry partners.
- 3. Internship Support**
Helps students find internships that are aligned with their area of interest (clinical practice, wildlife, public health, etc.).
- 4. Career Counseling**
Offers career guidance and soft skills training, including CV writing, interview prep, and communication skills.
- 5. Workshops & Seminars**
Hosts guest lectures, webinars, and workshops from experts in the veterinary and animal health field.
- 6. Alumni Network**
Maintains strong alumni relations to help current students connect with professionals in the industry.

Opportunities After Graduation:

The placement cell typically guides students toward:

- Veterinary Officer roles in government departments
- Private practice opportunities (clinics, hospitals)
- Postgraduate and PhD programs
- Research assistantships
- Jobs in pharmaceutical and vaccine companies
- International study or work opportunities
